

KAZ News

TEACHING TYPING SKILLS SINCE 1995

KAZ receives DSA approval for City & Guilds edition.

Our Neurodiverse City & Guilds Assured Edition is now approved by all Student Finance providers - England, Scotland, Wales and N.Ireland.

City & Guilds Assured - KAZ Centre No: 794943

Our Neurodiverse City & Guilds Assured Edition is now live!

"A City & Guilds Assured programme offers external validation from a trusted global brand, providing a mark of learning quality and credibility."

An 'Assured' status is only awarded to programmes that meet City & Guilds strict benchmark standards, demonstrating commitment to quality training."

The KAZ neurodiverse touch typing program has achieved and exceeded the above and is now City & Guilds Assured and SFE approved.

On successfully completing the course, candidates will receive a digital certificate and a co-branded digital credential/badge to showcase their quality skill externally via the web on social media profiles, CVs and job applications.

The main purpose of this City & Guilds edition is to incentivise students to complete the course, instill confidence in their ability and achievement and validate this 'life skill'.

KAZ Update

Individuals - We are pleased to see a huge increase in use of KAZ at home. Check out our new website homepage and learn about KAZ and the importance of learning to type. Why spend extra hours at the keyboard when you can simply learn this skill in just 90 minutes! With a product that has been tried, tested and proven and used globally - it makes sense.

Education - Schools are once again realising the need to prepare students with typing skills for academia and the workplace. We are pleased to say that more and more schools are now offering typing as a learning resource. KAZ Online can be accessed from both home and school and via RMuNify or Classlink.

Why do so many people use KAZ?

- It's Innovative
- It works
- It caters for ALL
- Tried-Tested-Proven

ASSURED
Centre Number: 794943

The CPD Standards Office
CPD APPROVED: 2017-18
2019 - 2020

Dyslexia Research Trust

Our new Neurodiverse edition tailor makes the course to each individual, addressing issues of visual disturbances by means of our unique preference screen. Now everyone in the class can learn together. We are proud to have been nominated as a finalist for the Bett 2019 Awards - Special Education Category.

Business - Employers - the benefits are clear. Learning this skill can save you in excess of £/\$3000 per year, per employee. See for yourself by using the ROI calculator on our website. All courses offered are CPD/CE accredited and qualify for certificates and hours/points towards your annual CPD/CE target. Available Online and in SCORM format for LMS. All courses incorporate our ©Preference Screen and cater for all learners.

DSA - To all our Assessors and AT trainers - thank you for all your recognition of this NEW edition. The importance of this skill has never been more essential, especially in today's technology based world. To arrange webinars or approved CPD sessions, please contact sheraleen@kaz-type.com or connect with us via our website.

The American Dyslexia Association were so impressed with our product, they started a blog. Please follow the link to view: <https://www.dyslexia.me/>

KAZ are an affinity partner with the British Dyslexia Association (BDA), support the Dyslexia Research Trust and affiliated with City & Guilds and the CPD Standards Office.

Thank you to everyone for your support
...**The KAZ Team**

Q. Why did you develop the Neurodiverse Edition?

A. Feedback from Teachers and Senco's informed us that approximately 10% of their students were still suffering with visual disturbances, despite our course being SEN enabled. We wanted our product to make a difference to the lives of ALL individuals, so we contacted the foremost authority on Dyslexia research - the British Dyslexia Research Trust to advise and guide us with the development.

Q. Why did you develop the Neurodiverse City & Guilds edition?

A. Assessors informed us that they were recommending our software because they really believed it would make a difference to their students but they found that because it wasn't a 'quick fix', **some** students would start but not complete the course. To address this issue we decided to incentivise students by validating the course and awarding all successful students with digital credentials from a globally recognised body.

Happy Easter from the team at KAZ
