KAZ News

TEACHING TYPING SKILLS SINCE 1995

What an exciting year we've had...

Our new html version was launched at Bett 2017 in January, followed by our SEN/Dyslexia version in the Autumn - which has received phenomenal reviews!

Thank you to everyone who took the time to contact us with their thanks and testimonials.

"We love it!" – Dr. O'Mahoney - Harrow School 05/12/2017 (using KAZ since 2003)

"We are adding your great new product to our range - Inclusive Technologies, UK

"I just bought your SEN/Dyslexia version typing course because I suffer badly from screen glare problems though not dyslexic. Love the product. Many thanks." - Judith. 06/12/2017

KAZ's new 'Inclusive' Corporate version is ready for the New Year.

Suitable for Further & Higher Education and all our Corporate users! Includes the same proven method but with new corporate imagery. The program opens with our new ©Preference Screen so the user can tailor make the course for maximum reading comfort. Currently available Online, with SCORM for LMS following shortly. (See our website for more details.)

"Thank you for all your support. We look forward to extending our product range in 2018 and continuing to make a difference.

Merry Christmas

- The KAZ Team"

KAZ Type

If your child needs or wants to learn to touch type right now, KAZ Type could be the solution. The Basics accelerated learning course teaches the A to Z keys in just 90 minutes, with lots of practice sessions, speed-building exercises and further learning for the shift, number and punctuation keys available to help you move on from the absolute essentials and improve your skills. We loved the ability to customise your screen display in the SEN edition to ensure you can read comfortably, and the typing and demo areas on the screen are clear and easy to use. You can also select UK or US keyboards and instructions, and the Junior edition uses animations and age-appropriate vocabulary to keep kids engaged. Guides to correct typing posture are also available, with typing character Kaz modelling best practice!

Pricing: For a single user it's £19.95 for one year's online access or £29.95 for a Windows or Mac software download (valid for ten years, with free updates). The Family Edition, which has 5 licenses, is £59.95 for a year's online access and £89.95 to download the software.

Best for: a super-fast immersion course for kids who want to learn the basics as quickly as possible.

KAZ Typing Tutor (SEN/Dyslexia)

A fast way to learn to type, its accelerated learning method teaches users to touch type correctly in minutes instead of hours.

Recently developed further with the 'Dyslexic Research Trust', to produce a multi-sensory program teaching typing skills whilst addressing disturbances related to 'visual stress', by means of a unique 'Preference Screen' offering choices of; dyslexic friendly typefaces, font size, font colour, background/ filter screens, keyboard and 'speaking keys'. Allows user to work at their own pace. Records bookmarks, speed and accuracy.

6566	Annual Subscription Junior single user	£20
6567	Annual Subscription Adult single user	£20
